Technical Skills

Overview

Programming

C# • .NET 8 • ASP.NET Core

Azure • CI/CD • Docker

SQL Server • PostgreSQL • DB2

JavaScript • TypeScript

Education

Bachelor in Information Systems

Federal University of Uberlândia (UFU)
2019 - 2023 | Brazil

Experience

- Nov 2025 - Feb 2026 **Backend .NET Developer (Mid/Senior)** Up Brasil
- Developed a real-time Financial Transaction Authorization system handling complex business rules and high-performance transactional flows.
 - Applied DDD, Clean Architecture and Vertical Slice patterns from architectural design to implementation.
 - Designed domain models and consistency mechanisms ensuring scalability and fault tolerance.
 - Stack: C#, .NET 8, ASP.NET Core, SQL Server.
- Feb 2025 - Oct 2025 **Backend .NET Developer** Mercantil
- Evolved credit transfer systems ensuring high availability in financial operations.
 - Maintained legacy .NET Framework systems and built modern APIs in .NET 6/8.
 - Optimized SQL Server and IBM DB2 databases with strong focus on performance and data consistency.
 - Worked in agile environments with CI/CD practices.
- Oct 2024 - Jan 2025 **FullStack .NET Developer** CSPRime
- Built insurance policy and claims management systems with REST integrations.
 - Automated business workflows and ensured regulatory compliance (LGPD, SUSEP).
 - Stack: .NET Core, PostgreSQL, SQL Server and Angular.
- Nov 2023 - May 2024 **FullStack .NET Developer** Stone
- Enhanced healthcare management systems in Azure cloud environments.
 - Optimized APIs and SQL queries and resolved production incidents.
 - Worked with .NET Core, SQL Server and PostgreSQL, Angular and JavaScript.
- Dec 2022 - Jun 2023 **FullStack .NET Developer** Bellinati Perez
- Developed credit recovery microservices and REST APIs for major financial institutions.
 - Improved system reliability and supported production environments.
 - Stack: C#, .NET Core, SQL Server, Azure, Angular, NodeJs and Javascript.
- Oct 2021 - Nov 2022 **Backend .NET Developer** Paschoalotto
- Built financial recovery systems for large banking institutions.
 - Designed APIs and microservices following SOLID principles.
 - Optimized relational databases for high-volume operations.
- Jan 2020 - Oct 2021 **Software Developer (Junior)** Adaptive
- Developed ERP modules and ETL processes for retail systems.
 - Designed PostgreSQL database objects and optimized queries.
 - Implemented reporting solutions and resolved system defects.
- Mar 2019 - Dec 2019 **IT Support** Linx S.A
- Provided technical support and database troubleshooting for retail systems.
 - Worked with SQL Server, PostgreSQL, Delphi and Java applications.
